DIRECTORS' REVIEW

We feel immense pleasure to present un-audited financial statements for the nine months period ended March 31, 2020. Profit after tax earned by your Company during the period under review is Rs 5,779 million as compared to a profit of Rs. 7,819 million during the corresponding period of last year. Earnings per share for the period is Rs. 9.11 as against earnings per share of Rs. 12.33 for the corresponding period last year.

Profit for the year has witnessed a reduction primarily due to increased non-operating finance cost by Rs. 3.1 billion and increased UFG disallowance by Rs. 2.1 billion. While your company has been able to reduce UFG in volumetric terms during the period under review when compared with the UFG volume for the corresponding period last year, (Jul-19-Mar-20, 33,935 MMCF, Jul-18-Mar-19, 35,170 MMCF), the UFG disallowance in monetary terms, however, increased primarily due to increase in Gas Purchase price during the period under review. Your Company is fully cognizant of the matter and is taking all steps to further reduce UFG and is confident to address the situation.

International Financial Reporting Standards (IFRS 16) notified by the SECP to be applicable for the financial years starting on or after January 1, 2019 has been duly implemented during the period under review. Another reporting standard, IFRS 14 has also been notified by the SECP to be applicable during the period, the implementation of the same has, however, been deferred owing to pending clarification / guidance from SECP.

Despite the financial constraints and economic challenges, your Company is taking all steps to minimize the impediments in the consistent profitability of the Company. The Board of Directors, Management and staff of the Company are confident that with the concerted efforts, performance of the Company will further improve in the years ahead.

PROJECTS

Projects Department of your Company has completed/laid 35.85 KMs Transmission Lines with diameters ranging from 6" to 24" including the contract lines. In addition to Transmission Lines, 148.5 KMs of Distribution mains were commissioned during 3rd quarter of FY 2019-20 for enhancing system capacity, supplying gas and improving pressure to customers for achieving customer satisfaction. In view of acute energy crisis prevailing in the country, Government of Pakistan aggressively pursued the import of 1200 MMCFD LNG into the country to meet shortfall in gas supplies to domestic / commercial / industrial customers as well as three power generation plants by the Government in Punjab, detailed below. The Company was engaged to augment their system for the transportation of 1200 MMCFD additional gas. The Company has completed / commissioned the following:

- (i) Its system augmentation project from Sawan to Lahore for the transportation of 1200 MMCFD RLNG downstream Sawan.
- (ii) Spur lines laying jobs of three power plants at Bhikki, Haveli Bahadur Shah and Balloki of consolidated 3600 MW capacity for supplying 200 MMCFD RLNG to each power plant.
- (iii) Spur pipeline works for supplying 100 MMCFD gas to RLNG based Nandipur power plant.

SEZ Management Companies have demanded gas supply requirement of 30 MMCFD for Rashakai SEZ and 40 MMCFD for Allama Iqbal Industrial Estate SEZ.

In order to supply gas to above mentioned early harvest SEZ projects, following gas pipeline infrastructure has been planned by SNGPL:

- Transmission spur 16"dia x 29.2 Km starting from Ismail Kot to terminal point along with SMS cum CMS having Capacity of 30 MMCFD for Rashakai SEZ.
- Transmission spur 12"dia x 19.75 Km starting from Chiniot to terminal point along with SMS cum CMS having capacity of 40 MMCFD for Allama Iqbal SEZ.

Approval of Rashakai SEZ project has been granted by Departmental Development Working Party (DDWP) and BOD approval is being arranged accordingly. However, Allama Iqbal Industrial City SEZ project is at different stages of approval.

2-Augmentation / Bifurcation of Lahore Distribution Network

BUSINESS DEVELOPMENT

The Company is engaged in various pipeline construction project of national and multinational companies. SNGPL is undertaking pipeline engineering and construction jobs of MOL Pakistan's flow line / trunk lines and Fiber Optic Cable in District Kohat / Hangu for different gas fields of MOL Pakistan like Maramzai, Manzalai, Mamikhel, Makori Deep-1, Tolanj West and Makori for the last fifteen years. MOL Pakistan has played a very vital role in strengthening the gas input supplies. MOL Pakistan has awarded the project of 8" dia x 7.5 KM pipeline laying from Mardankhel-3 well to

Mardankhel-1 flow line for onward processing at CPF and 6" dia x 1.2 KM flowline for Makori Deep-2. SNGPL has completed / commissioned Mardankhel-3 well to Mardankhel-1 flow line and Makori Deep-2 line. The completion of Mardankhel-3 & Makori Deep-2 projects have resulted in injection of additional 20-25 MMCFD gas into SNGPL's system that is quite instrumental in reducing the energy deficiency in the country. Lately, SNGPL has also completed MOL Pakistan's pipeline construction jobs of 6"dia x 6 Km & 12"/10"dia x 22 KM pipeline for Mardankhel-2 & Mardankhel-1 wells respectively, which has resulted in injection of additional 40-50 MMCFD gas into SNGPL's system. MOL is also planning to award flow line works of their recently developed Mamikhel South-1 to SNGPL on single bid basis which shows the trust in high standards of construction services maintained by SNGPL. Pakarab Fertilizer (PFL) had awarded the construction services job of their 16"/12" dia x 27 KM pipelines on contract basis to be laid from Gas Processing Facility (GPF) at Mari Petroleum Field to tie in point near QV2 valve assembly of SNGPL. Pipeline project of PFL has been completed/ commissioned in all respect during 3rd Quarter of FY 2019-20. The completion of this job has yielded profitability for the Company.

DELAY IN ISSUANCE OF FINANCIAL STATEMENTS

The primary reason for delay in issuance of these financial statements is delay in finalization of Annual Accounts for the year ended June 30, 2019 due to implementation of new accounting regulations and clarifications required from ASB as well as SECP. Further delays were experienced due to late determination of final revenue requirements by the Regulator which is a requisite for finalization of Annual Accounts prior to approval of financial statements by the shareholders of the Company.

ACKNOWLEDGEMENTS

The Directors place on record their appreciation for the Government of Pakistan, Ministry of Energy (Petroleum Division), Oil & Gas Regulatory Authority, other Government and Non-Government Institutions related to the Company for their sustained support and the employees of the Company for their hard work during the period under review and for their dedication to try and meet the demands of its diversified customer base.

غیر فعال مالیاتی لاگت (Non-Operating Finance Cost) میں 3.1 ارب روپے اضافہ اور غیر محسوب گیس کی عدم اجازت میں 2.1 ارب روپے کے اضافہ کے باعث منافع میں کمی واقع ہوئی۔ مشکلات کے باوجود آپ کی کمپنی زیر جائزہ عرصہ کے دوران غیر محسوب گیس کے نقصانات کے حجم کو MMCF 35170 (جولائی 2018 - مارچ 2019) سے MMCF 33,935 (جولائی 2019 - مارچ 2020) تک کم کرنے میں کامیاب رہی۔ تاہم غیر محسوب گیس کی عدم اجازت کی مالی لاگت میں اضافہ بنیادی طور پر گیس خریداری کی قیمت میں اضافہ کے باعث ہوا۔ آپ کی کمپنی کو معاملے کا مکمل ادراک ہے۔ غیر محسوب گیس کے حجم کو کم کرنے کے لیے تمام اقدامات اٹھائے جا رہے ہیں اور کمپنی پر اعتماد ہے کہ اس حجم کو اطمینان بخش درجے تک کم کرنے میں کامیابی ہوگی۔

SECP کی جانب سے نوٹیفائی کیے گئے IFRS 16، جس کا اطلاق 1 جنوری 2019ء کو یا اس کے بعد ہونا تھا، کا اطلاق زیر جائزہ عرصے میں کر دیا گیا ہے۔ SECP کی جانب سے نوٹیفائی کیے گئے IFRS 14، جس کا اطلاق بھی زیر جائزہ عرصے میں ہونا تھا، پر عمل درآمد SECP کی جانب سے زیر التواء وضاحت اور تنہائی کے باعث موخر کیا گیا۔

کاروباری توسیع (Business Development)

آپ کی کمپنی ملکی اور کثیر الملکی کمپنیوں کے پائپ لائن بچھانے کے مختلف منصوبوں پر کام کر رہی ہے۔ آپ کی کمپنی MOL پاکستان کے لیے پائپ لائن کی تعمیر کے کام کے علاوہ فلورائن / ائرنک لائن اور آپنک فائبر بچھانے کا کام ضلع کوہاٹ / ہنگو کے مختلف گیس کے کنوژن جیسا کہ مرمرئی، منزلائی، مانی نیل، کوڑی ڈیپ، 1، مغربی تونج اور کوڑی پر پھیلے 15 سال سے کام کر رہی

ہے۔ MOL پاکستان نے مزید گیس مہیا کرنے کے حوالے سے، بہت اہم کردار ادا کیا ہے۔ MOL پاکستان نے مردان نیل-3 سے مردان نیل-1 تک 8" قطر کی 7.5 کلومیٹر پائپ

لائن بچھانے کا کام تفویض کیا ہے۔ اس کے علاوہ کوڑی ڈیپ-2 کی 6" قطر کی 1.2 کلومیٹر فلورائن کے اوپر کام جاری ہے۔ سوئی ناردرن گیس پائپ لائنز لمیٹڈ نے مردان نیل-

3 کنوژن سے مردان نیل-1 تک پائپ لائن اور کوڑی ڈیپ-2 لائن کی تعمیر مکمل اور فعال کر لی ہے۔ مردان نیل-3 اور کوڑی ڈیپ-2 منصوبوں کے مکمل ہونے سے SNGPL کے

نظام میں MMCFD 20-25 اضافی گیس شامل ہوئی ہے جس سے ملک میں جاری توانائی بحران پر قابو پانے میں مدد ملی ہے۔ علاوہ ازیں SNGPL نے MOL پاکستان کے

لیے مردان خیل-2 اور مردان خیل-1 کنوؤں کی "6 قطر کی 6 کلومیٹر اور "10/12 قطر کی 22 کلومیٹر بائریٹیو پائپ لائن بچھائی ہے جسکی وجہ سے 40-50 MMCFD کی اضافی گیس SNGPL کے نظام میں شامل کی جا چکی ہے۔ MOL پاکستان مای خیل جنوبی-1 کنوؤں کی فلو لائن بچھانے کا کام بھی SNGPL کو واحد بولی کی بنیاد پر دینے کی منصوبہ بندی کر رہی ہے جو کہ MOL پاکستان کے سوئی گیس کے تیراتی کام کے اعلیٰ معیار پر اعتماد کا مظہر ہے۔ پاک عرب فریٹلائزرنے "16/12 قطر کی 27 کلومیٹر لمبی پائپ لائن جو کہ ماڈرن پیٹرولیم کی گیس پراسیسنگ کی جگہ سے سوئی گیس کی QV2 پوائنٹ تک ہے کا خشکیہ بھی سوئی گیس کو دیا ہے۔ پاک عرب فریٹلائزرنے کا یہ منصوبہ مالی سال 20-2019ء کی تیسری سہ ماہی میں ہر لحاظ سے مکمل/فعال کیا جا چکا ہے۔ اس کام کی تکمیل سے کمپنی کے منافع میں اضافہ ہوگا۔

مالیاتی گوشواراجات کے اجراء میں تاخیر:

ان مالیاتی گوشواراجات کے اجراء میں تاخیر کی بنیادی وجہ نئے اکاؤنٹنگ ریگولیشنز کا اطلاق اور ASB اور SECP سے درکار دوضاحتیں ہیں۔ کمپنی کے حصص داران کی جانب سے مالیاتی گوشواروں کی منظوری سے قبل ریگولیشنز کی جانب سے سالانہ اکاؤنٹس کی بنیاد بننے والے حتمی مالی ضروریات کے تعین میں تاخیر بھی ان مالیاتی گوشواراجات کے اجراء میں تاخیر کی وجہ بنا۔

انتہائی تشکر:

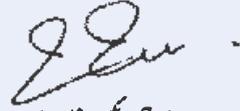

ڈائریکٹرز، حکومت پاکستان، وزارت توانائی (پٹرولیم ڈویژن) ماگرا اور متعلقہ سرکاری وغیر سرکاری اداروں کی مسلسل حمایت اور دورانِ عرصہ کمپنی کے تمام ملازمین کی ان تھک محنت، لگن اور صارفین کو خدمات کی فراہمی کے لیے کی گئی کوششوں پر مشکور و ممنون ہیں۔

- 1.2 These condensed interim financial statements are presented in Pak Rupee, which is the company's functional and presentation currency.

2. BASIS OF PREPARATION

- 2.1 These condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

- 2.2 These condensed interim financial statements are un-audited and are being submitted to the shareholders as required by section 237 of the Companies Act, 2017 and the Listing Regulations of the Pakistan Stock Exchange Limited.
- 2.3 These condensed interim financial statements do not include all the information required for annual financial statements and therefore, should be read in conjunction with the annual financial statements of the Company for the year ended 30 June 2019.

3. ACCOUNTING POLICIES AND ESTIMATES

- 3.1 The accounting policies adopted for the preparation of these condensed interim financial statements are the same as those applied in the preparation of the preceding annual financial statements of the company for the year ended June 30, 2019 except for the followings:

i) IFRS 16 Leases

The Company has adopted IFRS 16, 'Leases' with effect from July 01, 2019, which replaces IAS 17

'Leases', IFRIC 4 'Determining whether an arrangement contains a Lease', SIC-15 'Operating Leases - Incentive' and SIC-27 'Evaluating the substance of transactions involving the legal form of a Lease'.

IFRS 16 introduces a single, on balance sheet lease accounting model for lessees. A lessee recognizes a right-of-use asset representing its right-of-use of the underlying asset and a lease liability representing its obligations to make lease payments. Lessor accounting remains similar to the current standard i.e. lessors continue to classify leases as finance or operating leases.

On adoption of IFRS 16, the Company recognized lease liabilities in relation to leases which had previously been classified as 'operating leases' under the principles of IAS 17 Leases. These liabilities have been measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate of 13.21%.

The Company has adopted IFRS 16 retrospectively from July 1, 2019, but has not restated comparatives for the 2019 reporting period, as permitted under the specific transitional provisions in the standard.

The following summary reconciles the Company's operating lease commitments at June 30, 2019 as previously disclosed in the company's annual financial statements as at June 30, 2019 to the lease liabilities recognized on initial application of IFRS 16 at July 1, 2019.

(Rupees in thousand)

Operating lease commitments as at June 30, 2019	-
Discounted using the lessee's incremental borrowing rate at the date of initial application	36,134,618
Lease liabilities recognized as at July 1, 2019	<u>36,134,618</u>

The right-of-use assets were measured at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the statement of financial position as at June 30, 2019.

Increase in right-of-use assets	36,211,727

Increase in lease liability	(36,134,618)
Decrease in net assets	-

Impact on profit or loss

Company operates under fixed tariff regime, therefore, adoption of IFRS has no impact on the Company's profitability as the impact is a pass through item.

Key changes in accounting policies resulting from application of IFRS 16

At inception of a contract, the Company assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

From July 1, 2019, leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company.

The lease liability is initially measured at the present value of the expected lease payments that are not paid at the commencement date. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases of the Company, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right of use asset in a similar economic environment with similar terms, security and conditions.

The lease liability is subsequently measured at amortized cost using the effective interest rate method. It is remeasured when there is a change in future lease payments arising from a change in fixed lease payments or an index or rate, change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option. The corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in the statement of profit or loss if the carrying amount of right-of-use asset has been reduced to zero.

Except as detailed above, the Company has elected to apply the practical expedient of not to recognize right-of-use assets and lease liabilities for short term leases that have a lease term of 12 months or less. The lease payments associated with these leases is recognized as an expense on a straight line basis over the lease term

ii) IFRS 14 Regulatory Deferral Account

The Securities and Exchange Commission of Pakistan (SECP) through SRO 1480(I)/2019 Dated 27-09-2019 has notified IFRS 14 'Regulatory Deferral Account' and advised all classes of companies, that are required to follow IFRSs as notified by the Commission, to follow IFRS 14 for the preparation of financial statements for the annual reporting periods beginning on or after from July 1, 2019. However, while implementing IFRS 14, certain practical impediments have been encountered including scope/application of the IFRS to the company which require further clarification / guidance from SECP. Accordingly, the Company has sought guidance from SECP regarding implementation of the standard, therefore, this has not been followed for these financial information.

- 3.2 The preparation of this condensed interim financial statements require management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense i.e. Workers' Profit Participation Fund and Taxation which are subject to final adjustments in the annual audited financial statements. Actual results may differ from these estimates. The significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that were applied to the financial statements for the year ended 30 June 2019.

In this regard, the agreement for the supply of LNG/RLNG between the parties have not yet been finalized and is under negotiation. Additional liability or adjustment, if any, that may arise would be recorded accordingly on the finalization of the agreement.

7.2 The Honorable Islamabad High Court vide its decision dated January 31, 2013, declared Gas Infrastructure Development Cess (GIDC) Act, 2011 as ultra vires to the Constitution and directed the Company to adjust the amount already received on this account in the future bills of the petitioners. However, the Honorable Islamabad High Court vide its decision dated March 18, 2013, directed that neither the appellant shall recover the disputed amount from the respondents, nor the amount which has become payable to the respondents on the basis of impugned judgment shall be paid back to the respondents.

An order on the subject matter was also passed by the Peshawar High Court vide its judgment dated June 13, 2013 whereby the Court declared the GIDC Act, 2011 as ultra vires to the Constitution. An appeal was filed in the Supreme Court of Pakistan, which by its order dated December 30, 2013 suspended the judgment of Peshawar High Court. On December 31, 2013, the OGRA issued a notification directing levy of GIDC at revised rates.

In September 2014, a GIDC Ordinance was issued by President of Pakistan, pursuant to which, on directions of the OGRA, the Company charged GIDC from its consumers with effect from September 2014. The Ordinance was superseded by GIDC Act, 2015 passed by Parliament of Pakistan. The Act ratified the preceding GIDC Act, 2011 and GIDC Ordinance, 2014 and its provisions. However, a special Committee has been constituted by the Parliament to decide on previous arrears of GIDC due from customers and to make recommendations for removal of any anomalies in the GIDC Act. Based on the report of the sub-committee of the special committee requisite amendment in GIDC Act, 2015 had already been laid in the Senate through GIDC Amendment Bill and the same was referred to the Senate Standing Committee on Energy. However, a number of consumers of the Company contested and have obtained stay order from various Courts against recovery of GIDC. During the year ended June 30, 2018, certain amendments were introduced in GIDC Act, 2015 through GIDC (Amendment) Act, 2018, which inter alia include change in effective date for applicability of mark-up on delayed payments of GIDC and a settlement option for CNG consumers for GIDC payable pertaining to the period January 1, 2012 to May 21, 2015, subject to agreement with the Company.

Subsequent to the period ended March 31, 2020 the Honourable Supreme Court of Pakistan has ordered the recovery of previous year GIDC in 24 monthly installments and till the recovery of outstanding GIDC no further GIDC will be charged/recovered from the consumers.

Furthermore, principal amount of GIDC amounting to Rs 150,716,275 thousand (June 30, 2019: Rs 138,303,671 thousand) is recoverable from consumers and payable to Government of Pakistan. These financial statements do not reflect the said amounts since the provisions of the GIDC Act require the Company to pay GIDC as and when the same is collected from consumers. Furthermore, some consumers have obtained stay orders against recovery of the same and consequently in view of the legal advisors of the Company, the Company is not liable to pay such amounts until the same are recovered. Both the principal amount and sales tax on GIDC will be shown as payable as and when these balances are collected from consumers.

14.1 Included in trade debts are amounts receivable from Government owned power generation companies, independent power producers and Sui Southern Gas Company Limited (SSGCL) of Rs 97,762,431 thousand (June 30, 2019: Rs 93,892,862 thousand) along with interest thereon of Rs 22,508,613 thousand (June 30, 2019: Rs 17,482,640 thousand) due to delayed payments. While trade and other payables as referred to in Note 7 include an amount of Rs 428,854,412 thousand (June 30, 2019: Rs 317,681,475 thousand) due to Pakistan Petroleum Limited, SSGCL, Oil and Gas Development Company Limited, Pakistan State Oil, Pakistan LNG Limited and Government Holding (Private) Limited on account of gas purchases along with interest on delayed payments of Rs 65,332,785 thousand (June 30, 2019: Rs 42,370,242 thousand) and interest on delayed payment of Gas Development Surcharge of Rs 4,101,732 thousand (June 30, 2019: Rs 4,101,732 thousand) payable to Government of Pakistan. The settlement of these amounts is dependent upon the resolution of inter-corporate circular debt by the Government of Pakistan. Furthermore, amounts of Rs 242,128,228 thousand (June 30, 2019: Rs 185,376,149 thousand) and Rs 54,339,833 thousand (June 30, 2019: Rs 17,777,161 thousand) as referred to in Note 19 is receivable from Government of Pakistan on account of differential margins/deferral account. The recoverability of these amounts is dependent upon settlement by the Government of Pakistan directly or indirectly inter alia including increase in future gas prices.

14.2 In aggregate, the Company has recognized revenue of Rs. 22,161 million under Take or Pay ("ToP") arrangements from July 01, 2017 to March 31, 2020. This comprises of Rs. 8,536 million from M/s Quaid-e-Azam Thermal Power (Private) Limited ("QATPL") and Rs. 13,625 million from M/s National Power Parks Management Company Limited ("NPPMCL") (collectively referred to as Government Power Producers ("GPPs")).

The Company entered into Gas Supply Agreements ("GSAs") for supply of RLNG to GPPs. Under clause 3.6 of the respective GSAs, the GPPs shall take and if not taken, pay for the unutilized gas on account of Take or Pay ("ToP") arrangements. If the GPPs do not fully utilize the ToP quantity, they can request the Company to divert any unutilized quantity to other power plants, after seeking their consent. In case the power plants refuse or the Company, due to technical constraints or other reasons,

is unable to supply the unutilized quantity to the power plants, it can divert that quantity to any of its consumers. The amounts recovered from these consumers, after deduction of any additional charges incurred by the Company in arranging the sale is required to be paid to the GPPs. The revenue of Rs 22,161 million is recorded net of amounts billed by the Company to such other consumers.

The Company has also partially recovered the ToP amounts by encashment of Standby Letter of Credit of NPPMCL for a net amount of Rs. 10,384 million and withdrawal of Rs. 3,265 million from the Escrow Account of QATPL against the invoices raised under ToP arrangement. The net receivable balance as at period end amounts to Rs. 8,512 million (June 30, 2019: Rs. 6,571 million). The GPPs disputed the invoices under ToP arrangements on various grounds and filed a writ petition with the Honorable Lahore High Court ("LHC"). The LHC on June 22, 2018 directed that the disputed invoices should be dealt with in accordance with the dispute resolution mechanism available in the GSAs. In light of section 18.1 of the GSAs, various attempts were made to settle this dispute by mutual discussions but the matter remained unresolved. As required under section 18.2 of the GSAs, the dispute has thereafter been referred to an Expert, after mutual agreement of the parties involved, on October 09, 2018.

The legal advisor of the Company filed claims against GPPs to the Expert on March 15, 2019 and the proceedings before this forum were completed during September 2019. The determination of the Expert was issued in favor of the Company and the GPPs have approached the London Court of International Arbitration (LCIA) for the resolution of the matter. The matter is still pending adjudication with the LCIA and no proceedings have yet been initiated. Based upon the advice of the Company's legal counsel on this matter, the Company believes that it has reasonably good arguments in its favor and it expects a favorable outcome.

Besides the above proceedings, the Company, under the terms of the license granted to it by the OGRA, the guidelines issued by the Federal Government vide decision of the Economic Coordination Committee of the Cabinet ("ECC") dated May 11, 2018, and as per determination of Final Revenue Requirement of the Company for FY 2017-18 ("FRR 2017-18") dated January 15, 2019, operates under a fixed rate of return regime. The management believes that in case the decision of the Arbitrator is not in favor of the Company or is partially in favor of the Company, and the Company has exhausted its legal remedies available under the law, the matter will be taken up with the OGRA for determining the cost of the same to the Company in its revenue requirement decision, therefore, the Company is not exposed to any significant loss upon the conclusion of this matter.

17.2.1 The balance of RLNG differential margin represents the aggregate difference between the margin earned by the Company from the purchase and sale of RLNG based on the notified rates and the RLNG margin guaranteed to the Company till march 31, 2020. The settlement of this amount is expected to materialize in the shape of adjustment to future sale price of RLNG by the OGRA.

17.2.2 A gas swapping mechanism was allowed by the Economic Coordination Committee ("ECC") of the Cabinet Division vide its decision dated May 11, 2018, which was endorsed by the OGRA vide Final Revenue Requirement decision of the Company for financial year 2017-18 dated January 15, 2019 (FRR 17-18), for swapping of natural gas and RLNG for the purpose of gas load management. The necessary volumetric adjustments and financial impact is to be made on a cost neutral basis in the sale price of RLNG. The balance of gas swapping deferral account represents the difference of average cost of RLNG and the average sale price of system gas (June 30, 2019: average sale price) (used by the OGRA in determination of deferral account) of the swapped volumes. 27. INCORPORATION OF TARIFF REQUIREMENTS

- 27.1 OGRA vide its decision dated June 21, 2018 on the Estimated Revenue Requirement ('ERR') of the Company for the year 2018-19 decided in consultation with the Federal Government and other licensees in the natural gas sector to revise the tariff regime including the rate of return which is to be based on Weighted Average Cost of Capital ('WACC') from the financial year 2018-19. Weighted Average Cost of Capital ('WACC') was computed at 17.43% for financial year 2018-19 and onwards, however, the same will automatically reset if the reference figure changes by $\pm 2\%$. As per the revised tariff regime, the Company is required to earn an annual return of not less than Weighted Average Cost of Capital ('WACC') on the value of its average fixed assets in operation (net of deferred credit), before corporate income taxes, interest and other charges on debt and after excluding interest, dividends and other non operating income and before incorporating the effect of efficiency benchmarks prescribed by OGRA.
- 27.2 During the period, the Company could not meet the benchmarks prescribed by Oil and Gas Regulatory Authority (OGRA) and as a result the return for the period on the aforesaid basis works out to be 11.53% (March 31, 2019: 13.22%). Among other disallowances, the Company has also incorporated the effect of Unaccounted for Gas (UFG), which represents the volume difference of gas purchases and sales, amounting to Rs 6,472,761 thousand (March 31, 2019: Rs 4,387,325 thousand), which is in excess of the UFG benchmark of 6.9238% (March 31, 2019: 6.991%) as determined by OGRA in Final Revenue Requirements (FRR) for FY 2018-19.
